## Web Developer

### ABOUT ME

Web Development student passionate about creating responsive and user-focused websites. I enjoy turning ideas into real projects using modern web technologies. Constantly learning, building, and growing toward becoming a skilled full-stack developer. I work in web development because I truly enjoy it and love learning new things, not because I feel pressured to do it.

### EDUCATION

**BCA** - BLJS college(2023-2026 Graduated from Chaudhary Bansi Lal University (CBLU), Haryana, India, ) with a strong academic foundation in core computer science disciplines. Completed in-depth study of C Programming, Operating Systems, Computer Networking, Digital Electronics, Data Structures, DBMS, Artificial Intelligence, Web Designing, Software Engineering, Data Mining, and Web Development.

This comprehensive education has strengthened my analytical thinking, problem-solving skills, and development expertise, equipping me with the technical knowledge and practical understanding required to excel in Web Development and the broader technology field.

### WORK EXPERIENCE

**Future Interns** | 02-26 to 03- 26

#### FullStack Web Development Internships

Built production-ready web projects with a strong focus on performance, usability, and clean architecture.

### PROJECTS

**MKCODER.COM** (Nov 24 – Nov 25)

A distraction-free practice platform built with HTML, CSS, and JS to help students master responsive web development.

**Wanderlust** (Oct 25 – Feb 26)

A full-stack rental marketplace built with Node.js and MongoDB, featuring RESTful CRUD, Cloudinary integration, and Passport.js auth.
